FOREWORD

This season finds us beginning our thirty-eighth year in business. We wish to thank all of our customers for their part in making our past years so successful. We will strive to constantly increase our circle of friends by furnishing better service and plant material. We are able to supply high quality nursery stock because ---

All fields are rested periodically in green manure crops, and fertilizers are applied every year.

All fields are constantly cultivated to produce sturdy plants with a fibrous root system.

All plants are grown in our own nurseries in heavy clay soil and have been frequently sheared and trimmed.

All plants listed are transplanted three times.
All specimen plants are transplanted four times.

A complete irrigation system prevents damage to plants during dry spells.

This program enables us to supply you with the highest quality plants. We invite you to visit our nurseries when in Cincinnati and see our excellent material.

TERMS

All plants are offered subject to prior sale, with no warranty expressed or implied. Truck loads only. Net and F.O.B. our Nursery.

A 2% discount is offered for cash with order.
